

Commercial Agriculture

Harvesting Excellence

Operating a commercial agriculture business involves a unique set of challenges. Protecting specialized equipment, machinery, inventory, facilities, employees, and other company assets is a top priority. The Safehold Commercial Agriculture Program recognizes the importance of efficiency, quality, and service and works with commercial agriculture businesses to provide cost-effective insurance solutions.

Our program provides ISO-based solutions for agents specializing in commercial agriculture processing, including livestock feed manufacturers, fruit/vegetable processing distributors, grain elevator operators, fertilizer dealers and distributors and many other specialized commercial agriculture businesses.

Comprehensive Solutions for Commercial Agriculture Businesses

The Safehold team of dedicated underwriters provide quick turnaround for upfront policy issuance and deliver ongoing service excellence. We have developed successful relationships with leading carriers to help us offer coverages that protect your bottom line.

Coverages include:

- Commercial property; general liability; excess liability
- Commercial inland marine
- Commercial automobile; transportation coverage; cargo coverage

- Business income and extra expense
- Crime coverage

Property, general liability, and auto broadening endorsements are available.

We also have extensive experience working with the following commercial agriculture businesses:

- Cotton gins
- Commercial farmers (field crops, vegetables, melons, berry crops, grapes, citrus, deciduous tree fruits, wholesale nurseries)
- Commercial dairies (milking more than 3,000 head/day)
- Commercial cattle feedlots (owned and non-owned cattle)
- Dairy products manufacturing
- Meat processing (other than ground beef only)
- Food products manufacturing
- Hard shell egg growers/packers/shippers
- Nut packaging and processing, including hulling and storage
- Rice milling, drying, and processing (including food preparations)
- Seed and seed dealers
